Carlo Cambi Editore, 2015. Book Condition: new. A cura di Flaminio Gualdoni. Testo Italiano e Inglese. Poggibonsi, 2015; br., pp. 60, ill. b/n col., cm 15x21. Paolo Masi verifies in his typical way, foreign to preventive intellectual scrutiny, the coded system of references of what is called artistic practice. Historical presence and symbolic otherness of the work, afference and difference of artistic doing with respect to doing tout court, signifying and practical communication of meaning. Always, in the end, Masi's reflection turns to the idea of the pictorial, of a non-improbable painting. He breaks down and tests each element and phase of the process until reaching the ultimate consequences, but with the aim of restoring to himself and conveying an elementary grammar and a syntax of articulation of vision, from which to glean and, as far as possible, to fix the primary statutes of necessity and the radiant force of expressive expansion. Other periods will come, then. But this experience from 1979 is in many ways paradigmatic of the doing/thinking that is utterly Masi's, the great anomaly of the 20th-century avant-garde.
