

National model of higher vocational colleges focus on building professional quality planning materials (chemical): chemical unit operation (Vol.2)(Chinese Edition)

Filesize: 2.8 MB

Reviews

It becomes an remarkable publication that I have possibly go through. Better then never, though i am quite late in start reading this one. I am just delighted to inform you that this is basically the best ebook we have study inside my individual existence and can be he greatest book for actually.
(Dr. Torrey Osinski DVM)

NATIONAL MODEL OF HIGHER VOCATIONAL COLLEGES FOCUS ON BUILDING PROFESSIONAL QUALITY PLANNING MATERIALS (CHEMICAL): CHEMICAL UNIT OPERATION (VOL.2)(CHINESE EDITION)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: 2012 Pages: 299 Language: English Publisher: Tianjin University Press national model of higher vocational colleges focus on building professional quality planning materials (chemical): chemical unit operation (Vol.2) contains distillation technology absorption technology. extraction technique and reactor four typical unit operations. to apply for the purpose in the preparation of the spirit. to change the traditional mode. task-oriented. focusing on typical unit operations knowledge and operating practices close . fully embodies the unity of the teaching process. highlighting the engineering point of view. attention to thought-provoking. helping to train the students' learning ability and capacity for sustainable development. can be used as vocational Chemical related professional materials are also available for adult education and on-the-job learning reference. The book also increasing the number of self-test questions. so that students learn self-examination effect. Contents: Project Six distillation technology task an understanding of distillation. distillation process simple distillation unit in the industrial production. industrial production in the distillation apparatus and process description distillation operation in industrial production classification task II understanding of plate fine distillation tower. plate distillation column structure. type and performance evaluation of the plate. plate distillation column gas-liquid two-phase state. the basic theoretical knowledge of the phenomenon of abnormal operation of the plate tower Task three learning distillation operation a two-component solution gas-liquid phase equilibrium basis. Mixtures in a gas-liquid phase equilibrium simple distillation and balance distillation four principles of rectification task distillation simulation skills training. understanding of the distillation unit processes understanding distillation unit equipment. valves. instrumentation task five two-component continuous distillation process conditions. theoretical plates with constant mole flow assumptions. material balance and operating line equations and application tasks six distillation technology practical operation...
