GAO reviewed the Office of the Secretary of Defenses (OSD) report on its review of the Defense Logistics Agency's (DLA) management of all Department of Defense (DOD) inventory control points (ICP). GAO noted that: (1) OSD used conservative assumptions and cost factors in estimating cost savings from consolidating service ICPs under DLA; (2) its projected cost savings of 2.2 billion to 3.8 billion cover a 13-year period, fiscal years 1998 to 2010; (3) GAO believes this approach to be reasonable, given the sensitive nature of the issue, the limited amount of time to perform the review, and the data available; (4) however, the projected cost savings estimates would be at least 1.3 billion to 2.3 billion greater if OSD used base realignment and closure principles, such as estimating steady-state savings over a longer time period and a present value analysis instead of a constant dollar analysis; and (5) the potential savings would likely be greater yet if the analysis included: (a) savings from all business process improvements related to the consolidation; and (b) planned future improvements to DOD's existing material management information systems. This item ships from La Vergne, TN. Paperback.
