

Advances in Monetary Policy and Macroeconomics

By Zezza, Gennaro (Editor)

Palgrave Schol, Print UK, UK, 2007. Hardcover. Book Condition: New. Dust Jacket Condition: No Dust Jacket. First Edition. Available Now. Book Description: There have been important advances in monetary economics and macroeconomics recently. In macroeconomics there has been the paramount development of the New Consensus Macroeconomics along with significant policy implications, thereby giving rise to the notion of New Monetary Policy. This book deals with the key aspects of these developments and further ones such as money, credit and the business cycle. Adding to the analysis are developments that focus on issues for open and spatial macroeconomics. : About the Author: PHILIP ARESTIS is University Director of Research, Cambridge Centre for Economic and Public Policy, University of Cambridge, Senior Research Fellow, Wolfson College Cambridge, UK, and Professor of Economics at the Levy Economics Institute, New York City, USA. His publications include Introducing Macroeconomic Modelling: An Econometric Study of the United Kingdom, Money, Pricing Distribution and Economic Integration, What Global Economic Crisis?, The Post-Bubble USA Economy, Financial Liberalization and Financial Developments in National and International Markets. He has been editor and joint editor, and has served on the editorial board of a number of journals.: GENNARO ZEZZA is Associate Professor in...
